Isanti County Water Management Plan: <http://www.co.isanti.mn.us/zoning/complocalwater/Isanti%20County%20CLWMP.pdf>

Isanti Soil and Water Conservation District: <http://www.isantiswcd.org/>

Located in the Rum River Watershed. Isanti County well water should be tested for radium and arsenic levels. Soils in Isanti county have been found highly permeable, with a high water table, accompanied by a susceptibility to flooding. The groundwater is highly sensitive to contamination. Septic systems must conform to Minnesota Rules Parts 7080.0010 to 7080.315, 7080.0700, and 7080.0910. Potential lakeshore buyers should check on the updated conservation easements, runoff regulations and the potential restoration of filled wetlands.
