Water Clarity: 3.6 ft.  
Aquatic Invasive species: Carp, Eurasian water milfoil

MN DNR Fishing Report: <http://www.dnr.state.mn.us/lakefind/showreport.html?downum=27017600>

Pioneer– Sarah Creek Watershed District

Three Rivers Park District, Baker Park Reserve borders on southeast side of lake. Frequent lake algae blooms. Runoff regulations from hobby farms are being monitored by the EPA. See the EPA report <http://www.epa.gov/waters/tmdl/docs/Lake%20Independence%20Final%20TMDL01-07.pdf>. Also note property legacy ditches and Individual Sewage Treatment Systems. The soil has been determined to be unsuitable for septic. Also check for current storm water runoff projects and plans with the cities of Loretto and Maple Plain.
